

# NICK MERRITT

ux designer + art director

## PROFILE

I'm a flexible designer who has spent the last decade honing my craft. In this ever-changing industry, I constantly challenge myself to learn new skills and improve the ones I already have. I take pride in being able to adapt and evolve with current trends and best practices. I can move seamlessly across all areas of the design and development process. I thrive in a fast-paced environment and work well within a creative team or as an individual.

## WORK EXPERIENCE

- **FREELANCE / CONTRACT** - JULY 2015 - PRESENT  
UX Designer / Web Designer

I moved into a freelance design role to allow myself the freedom to explore new areas of design. I've worked with individuals and large corporations on a wide range of projects.

- **KITBASH BRAND DESIGN** - OCT 2013 - JULY 2015  
Art Director / UX Designer  
[www.getkitbashed.com](http://www.getkitbashed.com)

My focus at Kitbash was on branding, responsive web design, and front-end development. Here I worked with clients to help design a wide range of user experiences for websites including personal blogs, larger corporate sites, and ecommerce sites.

- **THINK WEBSTORE** - SEP 2010 - MAY 2014  
Art Director / Senior Web Designer  
[www.thinkwebstore.com](http://www.thinkwebstore.com)

Joining such a small team allowed me to gain experience in several different creative areas (web, social media, branding, etc.). I was able to use my experience to teach and push others creatively. I was soon shifted to an Art Direction role while remaining a Senior Designer.

- **ALLISON RODGERS PHOTOGRAPHY** - SEP 2007 - SEP 2010  
Senior Graphic Designer
